### Japan is Exporting Pulp

Japanese imports of pulp have encountered obstacles, but, according to the Japan Chronicle, it is believed that the stocks held by paper manufacturers generally are sufficient to last until the end of this year, while the domestic manufacture of pulp stimulated by import duties, has appreciably developed. As a result, efforts are now being made by some merchants to export home-made pulp.

The Chronicle states that this is not to be the disadvantage of those paper manufacturers who are suffering from the scarcity of imported pulp, for what they potentially want is not yet producible in this country. It finds that there is no excessive domestic pulp that is exported.

Pte. Armstrong, of Coleman, has arrived at Calgary from overseas.

### Acknowledges Contribution to Blind Children's Fund

Halifax School for the Blind, Murdoch Square, Halifax, N.S., February 12th, 1918.  
W. J. Bartlett, Esq., Proprietor "Enterprise", Blairmore, Alberta.

Dear Sir--  
I have your kind favor of February 6th enclosing \$16.25, being proceeds of a dance given in aid of our Blind Endowment Fund. Will you please convey to the members of the Blairmore Social and Dancing Club my very sincere appreciation of their thought of the blind of Halifax, and of the many problems we have to face in connection therewith.

Thanking you for your kindness in the matter, believe me,  
Gratefully yours,  
C. F. FAIRBANKS,  
Superintendent.

### Blairmore Red Cross

The regular monthly whist drive under the auspices of the Red Cross Society will be held Friday, March 1st, in the dining room of the Alberta hotel, opposite the station. Please notice the change of meeting place. Our thanks are due to the local hotel men for the use of their rooms and we appreciate their continued assistance.

A canvass of the business street has resulted in a promise of a number of substantial monthly subscriptions to our fund. Some are turned from former subscriptions to the Patriotic Fund--others are new. The money is urgently needed to carry on the ever increasing work of the Society. Please note that any subscriber contributing the sum of twenty-five dollars within a year will be given a Life Membership in the Society.

### War Time Decalogue For Auto Owners

Here's a war time decalogue for the motorist of today, as given by a famous eastern distributor.

1. Don't speak of the automobile industry in the past tense. This fact still has a present and a future. But if enough persons think business is expanding, it probably will. No man's health has ever been improved by telling him how sick he is, or how sick he is going to be.

2. Don't let your engine run idle. Your doing so may keep an allied motor idle later overseas. You don't waste food any more. Don't waste gasoline. It's the food of the auto and the airplane.

3. Don't let your automobile be a stow-away. This is not a jest. You are unpatriotic if your neglect is the cause of its idleness. War time activities of the police are so great that everyone should co-operate in reducing, instead of increasing, the amount of their ordinary tasks.

4. Don't include in your automobile as a "pleasure car." It's primarily a passenger car. The automobile of 1918 is no more a pleasure vehicle than gasoline is "joy water." Help kill the idea that the machine is a luxury and its utilization value will go up.

5. Don't be an "empty seat hog." There are hundreds of boys in khaki walking the streets who have never ridden in a motor car. Do your part to make them happy while they are still "over here." The French and English are trying to do the same for their "over there."

6. Don't wash your hands in gasoline after cleaning your car. Play fair with your automobile-owning neighbors who are wholeheartedly endeavoring to be of service in obviating urgent government requests, however voluntary the observance of the rules may be.

7. Don't use your big car if you have a small one also. The latter won't eat up the "gas" so quickly.

8. Don't oppose the expenditure of municipal, provincial or national funds for the building of good roads. They are a vital part of adequate military equipment and preparation.

9. Be full to learn to drive your car, if you can't already do so. If the government is forced to call upon you, too, you'll be sure as valuable and twice as welcome if you have even a rudimentary knowledge of mechanics.

10. Don't think you are helping Canada if you want an auto and can afford to buy one, but still fail to do so because there's a war going on. It's far from the government's dream now to stop the industry.

As several complaints were made recently that we were responsible for people not attending church on Sundays owing to our publication reaching their friends on Sunday morning, we thought we would press out the scheme for one week, and delay issuing until Monday. To our surprise all the churches in The Pass were crowded to the doors on Sunday, and the pastors have begun to realize that a new day has dawned. My, but the press has a wonderful influence, after all!

The attempt to enforce the Lord's Day Act in Victoria has come to an end, expiring owing to difference of opinion regarding responsibility between the police commissioners and the attorney general. Places of business which have been closed for the past two or three Sundays have been allowed to open and play their trade without interference.

Because of a severe earthquake in China, Chin King is somewhat nervously prostrated.

### The Egyptian Pyramids

The pyramids of Egypt are thirty-eight  
in number and stretch for some fifty  
geographical miles along the western  
reach of the Nile valley, just where the  
fabled desert and the cultivated land  
struggle for extension, or from nearly  
opposite Heliopolis to past the site of  
Memphis. Of the whole number, only  
one, the first, most northern, or "Great  
Pyramid," is a true pyramid; thirty-four  
are mere mounds—i.e., only approxi-  
mately true—while the remaining three  
scarcely deserve to be classed as pyramids  
at all.

### Marry or Pay Penalty

Any male or female person who after  
having reached the age limit has not  
contracted marriage, or any married  
couple who after living together for a  
certain number of years has not had any  
child or children born to them, shall pay  
a certain amount of contribution to the  
government, if the bill presented by Rep-  
resentative Philip Morris from the  
second district of Iowa is enacted  
into law in the Philippines.

This bill lists for the object to require  
and oblige all those persons who are  
of legal age to contract marriage in order  
that they may help enlarge the population of  
the islands. As a matter of fact, many  
people of this kind perpetrate the mar-  
riage to escape maintaining a family and  
work for their living.

### To Bury Somebody

A colored woman was lately engaged  
in engaging her services, seeking, on the  
part of the white ladies, to be buried. As the  
silver quarters, dollars, nickels, dimes,  
etc., rolled out on the desk the clerk  
said: "This must be the result of a num-  
ber of hard years' savings." "Yessah,"  
she kept saying it to herself, but she  
was not to think! It was not at all  
made up with mind it would be a long  
time to buy a Victory Bond. She felt  
very sure about it.

### Forewarned

Chapman, playing on St. Andrew's  
links for the first time (to cadette)  
"What is that yawning noise in the dis-  
tance, cadette?" "Cadette," "Tis all—  
sir," Chapman—"Indeed! What a  
name to give a cadette?" "Cadette—"Ye  
see, sir, it's called 'Cadette' because  
ye get to be a cadette." Chapman  
plays and leads in the bunker, then calls  
for his niblick and plays a good shot out  
of the bunker. Chapman—"What a  
name ye got to say now?" "Cadette—"Ah,  
that I have to say, sir, no—When ye  
take yer niblick 'tis called 'Cadette'."

### To Cure Shell Shock

Many officers and men are returning  
to England suffering severely from  
shell shock and other ailments contracted  
in the trenches. The peculiar nervous  
condition to which the men who delin-  
quents is difficult to treat. At Dr. H. H.  
England, are some remarkable natural  
herbals which have done much to  
cure these unfortunate victims of the  
war to their normal state.

The treatment consists of a number of  
baths such as douche, needle and spring  
Men who are able to swim are encour-  
aged to use the swimming baths. There  
are a number of them. In one of  
rheumatism and frost-bite much relief  
has been obtained through the use of  
a brine spray and massage. The attend-  
ant has a hose attached to a sprayer so  
that he can massage and spray the  
patients at the same time. This hose is  
used to spray the men who delin-  
quents of the body. At the same time,  
a stronger spray from a wallower keeps  
the entire body well doused. At Dr. H.  
England's is a special warm. The  
vigorating effect is soon felt, however,  
after a few treatments the patient is able  
to stand a cooler temperature—Popular  
Science.

### He Won It

A schoolmaster once said to his pupils,  
"To the boy who makes the best improve-  
ment in five minutes or less to over-  
come Habit, I will give a prize."

When the five minutes had expired a  
lad of nine years stood up and said:  
"Well, Mr. H., habit is hard to overcome.  
If you take off the first letter it does not  
change 'habit.' If you take off still  
another letter you will have a 'bad' lad.  
If you take off still another the whole of  
'he' remains. If you take off another it  
is not totally and up-all of which goes  
to show that if you want to get rid of  
habit you must know it off altogether."

Kamsh—He got the prize.

## Speech From The Throne

Outlines Public Service Reforms  
and Greater Production  
Measures.

Economy and greater production are  
the keynote of the speech from the  
throne which was read by Lord Gov-  
ernment at the opening of the fourth  
session of the fourth legislature of the  
province of Alberta. After congratulat-  
ing the two soldier members, Lieut.  
(Nurse) Roberta McAdams and Capt.  
Robert Pearson, on their safe return  
from the conflict overseas, the speech  
deals with the appeal that will be made  
for greater production of foodstuffs,  
with a lowered consumption at home. A  
measure of public service reform will be  
laid before the legislature in order to  
effect "a better organization of the dif-  
ferent departments of the service at a  
lower cost of administration."

While not believing that it should be  
permissible to undertake, the govern-  
ment will be asked to revise the system  
of taxation for the Canadian Pacific  
fund that will distribute the burden  
equitably.

The estimates for the coming year have  
been "prepared with due regard to  
economy and the requirements of the  
public service."

The house assembled at 9 o'clock  
Thursday, February 7. There was a  
large attendance of visitors. Admission  
to the public was by card from a list in  
the possession of the clerk of the house,  
John B. Cowell. Immediately after the  
reading of the address, the house adjourned to Friday  
afternoon.

President Stewart moved the appoint-  
ment of Hon. G. W. Fisher as speaker,  
which was seconded by Hon. C. E.  
Mitchell, and greeted with great ap-  
plause.

### Speech From The Throne.

Mr. Speaker and Members of The Legis-  
lature Assembly:

It gives me great pleasure to welcome  
you to the first session of the fourth  
legislature of the Province of Alberta.  
During a time when the utmost pro-  
duction of foodstuffs is so urgently re-  
quired, the two soldier members, Lieut.

will be other public and private bills  
requiring attention, will be brought before  
you, and I commend them to your  
serious consideration.

My government is firmly of the opinion  
that while the duty of caring for re-  
turned soldiers devolves upon the Pro-  
vince government, re-education by the  
province in connection with the re-  
turn of those men to civilian life would  
be ensured by the conserving of our cap-  
ital until the end of the war, so that the  
province may be in a position to under-  
take various necessary public works  
during a proportion of the labor  
which will be available at that time. It  
is, therefore, the intention of my govern-  
ment to undertake only such new work  
in connection with the ordinary activi-  
ties of the various departments of the  
public service which is absolutely essen-  
tial to the welfare of the province, and  
only with the most rapid economy.

The public accounts for the last fiscal  
year will be laid before you, as well as  
statements of the amounts required for  
expenditure during the coming year, all  
prepared with due regard to economy  
and the requirements of the public ser-  
vice.

Members of the Legislature Assembly:  
I now leave you to the business of the  
house, having full confidence that your  
deliberations will be wisely guided to the  
best interests and welfare of the pro-  
vince.

### Paid Dummies

Admitting term to designate the majority  
of those who sit on legislative assemblies,  
of the 55 members who sit in our own  
provincial parliament is safe to say that  
during the five years that they have  
been in office, 75 per cent. will never enter  
work on floor of the House that will be  
worth two pence to the province. Per-  
haps we are mistaken, but I have no recollection  
of any private member of the house  
ever introducing any legislation  
which has been of any importance to the  
welfare of the province. All the good

A couple entered the Hudson Bay store at Edmonton one day last week, in company with two children, one about six and the other about three years of age. After strolling through the store for quite a while they deposited the younger of the two children in a perambulator and after pinning a \$20 bill to the vehicle with the request that it be used to care for the child the couple disappeared. Up to the present they have not been located, while the child, which was not discovered until about an hour later, is at present under care of the authorities.

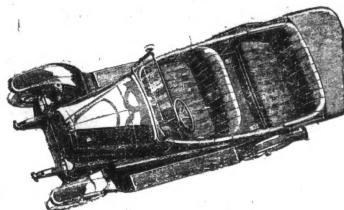

"Is the church dead?" was the subject of a recent Sunday night's discussion. The enquiry led to a number of people going around to see.

## The Ford Saves the Hay and Oats the Horses Eat

IT HAS been estimated that five acres of land are required to maintain one horse for a year, and that the same five acres would produce nearly enough food for two people. If 50,000 Canadian farmers each replaced one horse with a Ford, 250,000 acres would be added to the Nation's source of food supply and enough extra food made available to feed 100,000 people.

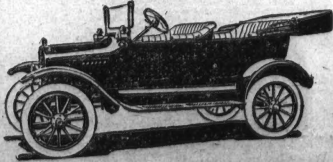

Just think what a great service this means to the country at the present time and the benefit to the farmers from the sale of food produced on this acreage.

A Ford car also saves the farmer a week or more of valuable time each year, which can be used for further productive work. The Ford travels three times as fast as a horse and rig—costs less to run and keep, and is far easier to take care of. With labor so scarce and high priced, time means money, so do not delay in getting your Ford.

The leather trade, owing to the fact that leather has so many uses in the production of accoutrement, harness, saddlery, and clothing, has always seen great activity in war time. Some idea of the immensity of the demand for footwear will be obtained when it is stated that since the beginning of the war to the end of May, 1917, 40,000,000 pairs of boots had been purchased. In addition to these, which included about 8,700,000 pairs for our Allies (7,000,000 for Russia alone), we supplied Russia with 6,000 tons of sole leather for repairing purposes. The great majority of manufacturers of boots and shoes in the United Kingdom had had no previous experience of army footwear requirements, and were quite unprepared for the immense demand. It is, therefore, a matter of surprise that this particular branch of the leather industry has performed, so far, its gigantic task with so little dislocation of the civilian trade. Prices for footwear are certainly high in this country, but they are only about one-fourth the prices in Germany and Austria. —London Economist.

### German Sea Wolves of Cruiser Type Carry Waterproof Cannon and Fire Insanely

The submarine warfare has gradually taken on a new phase since the victory of the allied forces. The German submarines are now doing most of the sinking, while the British submarines are doing the rescuing. They are now attacking the enemy's shipping, and they are attacking the enemy's shipping.

The reason for this change in German technique is that small submarines are not good surface craft in stormy seas, while the cruiser type has proved wonderfully seaworthy, being actually more manageable than the modern torpedo boat.

A considerable proportion of the recent sinkings have been accomplished by the German submarines. The German submarines are now doing most of the sinking, while the British submarines are doing the rescuing.

## Alsace-Lorraine

Provinces Have Given France a Hundred Germans in This War

The Germans took Alsace-Lorraine as they invaded Belgium, on the pretext of necessity. It annexed the French-speaking city of Metz, and the German-speaking city of Strasbourg for the same reason. He has been here ever since by night.

Alsace-Lorraine has given France a hundred Germans in this war and Germany not one. Thirty thousand Alsatians have, at the peril of their lives, crossed the frontier to fight in French armies.

## Canada Leads

In Wheat Yield

Reportable Surplus Six Times That of the United States

"Canada leads in the production of wheat per capita," said Dr. C. A. Zavitz at the Ontario Farmers' convention held in Stratford recently.

Canada's wheat production is seventy and a half bushels per head of population, Argentina, which ranks next in this respect, produces fifty-six and a half bushels per capita, and the United States forty-five and a third. Canada's exportable surplus of wheat is almost double that of the United States.

In view of the existing wheat shortage, Dr. Zavitz again stressed the importance of growing more spring wheat in the future to avoid the groundlessness of the current belief that spring wheat in this province does not do so well as it formerly did. As a matter of fact, spring wheat has increased in the last three years than in any of the last three consecutive years in the last thirty-five with the exception of one.

Never before, either, has wheat been better than it promises to be this year. Marquis is the variety to grow, Dr. Zavitz said.

Born Before It—There are many who have been afflicted with sore and have driven them away with Dr. Thomas' Electric Oil, which acts like magic. All similar troubles should have no time in applying this splendid remedy, as there is nothing like it to be had, cheap, but its power is in no way expressed by its low price.

Frictionless Irrigation The remains of irrigation systems when the valleys of Arizona were limited by the highly civilized Indians, are still in existence, says the Marine Journal. One of the most famous of these is on the state highway, running from Prescott to the Grand Canyon.

Water is taken from what is known as Montezuma's well, a curious natural well 40 feet in diameter and 95 feet deep, except in one spot where no bottom was reached at a depth of 500 feet. Lime-solution is carried by the water and the water in the ditch has been preserved by the petrification of the original earth.

"Have you read the distinguished professor's essay on when the war will end?"

"No; but in 1913 I read his essay proving that the war will end any more war."—Life.

## To Protect Crop

From Grain Rust

Department of Agriculture Has Many Useful Hints for Farmers

Grain rusts are the cause of very heavy losses every year throughout the grain growing districts of the Dominion. Black or stem rust is the most destructive of all in Canada, as it chiefly attacks the wheat crop; but it also affects oats, barley and rye.

A display card showing the rust in its various stages and how it is obtained from the Dominion Department of Agriculture. Copies of the bulletin may be obtained from the Dominion Department of Agriculture.

Abbreviated, the bulletin reads as follows:

Avoid wet land or provide thorough drainage which increases yield and yield. Vigorous plants are less liable to attack.

Perennial diseases of the seed are an important consideration; a smooth surface encourages uniform growth, and increases the yield.

Hutton, of Bellevue.

Germany would have nothing to  
benefit from Russia in the matter  
of food supply, for it is believed  
that the latter country will not be  
even self-sustaining until a com-  
plete organization of agriculturists  
is effected, and it may be years  
before the conditions are restored  
to normal.

Clubs in Calgary and Edmonton  
are using up their spare time  
bating as to whether or not Miss  
McAdams and Mrs. McKinley  
should list their hats to address  
the Speaker in the Alberta House.  
In case the male members of the  
House should become so seated as  
to be obliged to leave the House  
quickly, they should be allowed  
to wear their hats all through the  
session.

The German idea of an armistice

A hospital ship with 772 officers  
and men of the Canadian Expedi-  
tionary Force arrived at an Atlan-  
tic port on Saturday last. The  
number of the number are not  
known.

We picked up a little sack of  
rice on the street the other day  
and will keep it for use in con-  
nection with a happy event to take  
place about June the 1st, in which  
a local lady is very much interest-  
ed.

realized that there's nothing dead  
about the Canucks!

The secret treaty concluded be-  
fore their intervention in the war by  
Tusk with the entente powers con-  
tained a clause that any peace ini-  
tiative by the pope would not be  
tolerated, nor should his inter-  
ference in the war. This is now  
denied by the Catholic deputy,  
signor Longinotti.

An important real estate deal  
was put through on Saturday last  
by Mr. A. McLeod, who the Nic-  
for property on the corner of Vic-  
toria Street and Eighth Avenue  
changed hands, the purchaser be-  
ing Mr. J. E. Gillie. We understand  
that several thousand dollars  
were involved in the transaction.

A good game of hockey was  
played by the juniors of Frank and  
Blairmore on the Frank rink on  
Saturday afternoon last. The re-  
sult may be judged from the fact  
that the Blairmore boys refused to  
tell us anything about the game.

## Cowley Happenings

Hugh Pettit and Walter Knight  
have returned from Spokane.

Mr. and Mrs. Albert Cleland  
were Pincher Creek visitors on  
Tuesday.

Mr. H. Stontenburg and family  
have returned from an extended  
visit to the States.

P. I. Barnett and wife are attend-

Edmonton this week.

Mr. Cowan and family left on  
Monday night's train for Quebec,  
where they intend residing in the  
future.

We are glad to say that Mr.  
Hargrove is steadily improving,  
and expects to be out of the hospi-  
tal in a few days.

The River Baseball Club held a  
dance in the Cowley hall Wednes-  
day night, the proceeds, together  
with last year's surplus funds, go  
to the Red Cross. We are glad to  
say that a very pleasant time was  
the result, and that a tidy sum was  
realized.

Quite a crowd gathered at the  
local school on the afternoon of the  
14th. A planning programme was  
given, together with the distribu-  
tion of many valentines which  
the children had made for one an-  
other. Some of these valentines  
were beautifully hand-painted. A  
sumptuous lunch was served, and  
everybody seemed to have had a  
pleasant time.

## Bellevue Happenings

Mrs. E. W. Christie was visit-  
ing friends in Blairmore last week.

Ed Coupland went to the hospi-  
tal for a slight operation this week,  
and he is doing fine.

Miss Florie Halliwell has se-  
cured a position as teacher at  
Nanton, and has already entered  
upon her duties.

Rev. Clay, of Coleman, will con-  
duct a Lenten service at the home  
of Mrs. Christie, on Tuesday evening  
next, at 7.15.

A. Halliwell and H. Barless  
left camp Monday night to Ed-  
monton to attend the I.O.O.F.  
Grand Lodge meeting.

Mrs. A. Halliwell, accompanied  
by her daughter Maggie, will this  
week for Calgary, where she has  
gone for treatment for her daughter.

Dr. Lillie has opened up an office  
in the front of Cole's picture  
hall, and will be there every Fri-  
day to attend to those in need of  
his services.

The junior club of Bellevue went  
to Frank to play hockey last week,  
and got a trimming to the tune of  
3-2 in favor of Frank. They in-  
tend doing better next time.

With some barbers it is "First  
the blade, then the ear." Alight,  
for we were told the other day that  
a fellow who nearly lost his ear when  
shaved by an amateur.

If the Indians of the Blood Re-  
serve show their willingness,  
the Dominion government will next  
fall sell a block of land at each of  
the north and south ends of the  
reserve, each block approximating  
50,000 acres at an upset price of  
\$20 per acre. The land will be  
subdivided and sold by public auc-  
tion.

Belief that a naval engagement  
has occurred is expressed by a dis-  
patch received in Stockholm from  
Göteborg and forwarded by the  
correspondent of the London Morn-  
ing Post. The dispatch reports  
the recovery of a large number of  
bodies of German sailors, who ap-  
parently belonged to a warship.

Those with sea-going experience  
realize that their friend, the har-  
cane, has done its bit in this war  
by helping to tie up the German  
navy. German ships should be so  
arranged with torpedoes that the  
original shell might easily be re-  
moved to be converted into some  
other purpose. But it wasn't Ed-  
mon who invented the harcane.
